MAKE A DIFFERENCE FOREVER IN THE LIVES OF PEOPLE

Dear Facilitator, Presenter, Teacher

No matter what your effectiveness regarding course presentation is right now, your potential to become a master presenter is beyond all limits and closer to you than you have ever imagined. YOU have the ability to communicate to the learners not only your own potential but also the immense potential, which they have within themselves. You can make a lasting difference in their lives.

No matter how frustrated and dissatisfied you feel with your present progress and the probably poor advancement of your learners. By reading these words, you are already on the brink of changing yourself into a master teacher and changing your learners into the geniuses, which each of them is supposed to be.

I can promise you this because I have travelled the road of human empowerment for 51 of my 71 years. I have been fortunate enough to discover a certain secret early in my career. It was the secret about the power of suggestion and when you listen to my Home Study Course, you will hear about all the wonderful things that happened to me as a result of that secret.

Almost every accomplishment of my teaching career can be traced back to the effect of a teaching approach called **SALT** (*Suggestopedic Accelerated Learning and Teaching*). You will hear more about this in a few moments!

My dedication to **SALT** has enabled me to help thousands (many thousands) learners, facilitators, teachers and trainers to unlock their great latent potential.

I remember so well the deep gratitude when one realises that you have changed even the most desperate self-esteem and non-existing self-confidence of illiterate people in surroundings of desperate poverty, or non-achieving children apparently doomed to failure. When you see them blossom into radiant individuals, some of them becoming highly successful executives, high flyers, valuable citizens, preachers, public speakers.

I achieved success in the worlds of school teaching, adult illiteracy and human empowerment because I could use the power of suggesting constant advancement, and could meet people on the levels of feelings, emotions, and desires.

I have always believed in the innate power of the person in front of me. I have inspired people to accomplish goals they have never believed possible. A single example will be sufficient.

In the winter of 2007, I was asked to perform something close to the impossible. Having a hearing deficiency myself and not being able to sing a note nor having any knowledge about the laws of music, except that of inspiration and appreciation of beauty, I had to prepare 20 farm school Afrikaans-speaking children between the ages of 5 and 12 for a national eisteddfod.

The item had to be choir singing! I bluntly refused to use the rather silly prescribed songs. I decided to let them do something unforgettable for the rest of their lives.

They had to study eight lines of excellent of German poetry (words by Friedrich Schiller as used by Beethoven in the choral part of his 9th symphony). I had them listening to good CD-recordings for many times to master the melody.

We practised in an old barn. I had them standing barefooted on the stage without a piano or any other musical accompaniment, with me standing at the very back end of the hall, a 12-year old girl counting for the singing to begin.

Long story cut short. They eventually got through to the finals in Pretoria and whilst singing those totally unexpected powerful German words and melody (not approved at all by the Eisteddfod Committee), the audience of a few thousand people rose to their feet, giving them a standing ovation, and of course they took the trophy home!

Everyone thought it to be a miracle. I knew it was not. I **suggested directly into their subconscious minds** that they had the ability to sing that song effortlessly and magnificently because I knew the power of **suggestion**. This experience will stay with them for the rest of their lives because it was totally out of the ordinary, it was exceptional.

**AND TODAY I WANT TO SHARE THIS SECRET WITH YOU
THE SECRET, WHICH WILL GUIDE YOU TO BEING AN EXCEPTIONAL TEACHER OR FACILITATOR**

IT IS NOT NECESSARY FOR YOU TO SPEND A LIFETIME TO DISCOVER THE SECRET, WHICH WILL UNFOLD YOUR OWN EXCELLENCE.

I have had the doubts, which you have now.

I had to learn that no teaching escapes the law of PRACTICE making perfect.

I have dedicated my life to WORKING CONSISTENTLY on a certain way of teaching.

I had to accommodate that way of teaching in my WAY OF LIVING.

WHEN YOU LISTEN AND OBSERVE WITH YOUR FULL ATTENTION TO WHAT IS BEING SAID AND DONE ON THE HOME STUDY DVD'S, AND IF YOU DO IT AS SUGGESTED IN THE INSTRUCTIONS YOU WILL GRASP THE PRINCIPLES OF THE SECRET.

Hi, my name is Professor Flip Strydom. *I have been a teacher all my life, mostly a language teacher: German, Afrikaans & English.* However, I did much more than that.

I am one of a few teachers who have successfully taught the total spectrum of educational possibilities:

Grades 3-9 primary phases,

NQF levels 1-4 secondary/high school,

NQF levels 5-8 tertiary education (graduate and post-graduate),

All literacy and ABET levels, and

Training of mother tongue literacy presenters

Training of ABET facilitators:

- I am a born Namibian and pioneered adult education classes in Windhoek from the mid 1960's.
- I was the Deputy Principal of the largest German Private School outside Germany (the first non-German mother tongue speaker ever to hold such a position).
- I was awarded the title of "Oberstudienrat" (Master Teacher) by the German authorities in 1979 for good teaching and consistently good learning results.
- I was awarded an Honorary Professorship in Applied Linguistics at an esteemed Johannesburg University in 1988 for work done in disadvantaged communities.
- I was for 10 years the Literacy Director of the Foundation for Empowerment through Afrikaans, and had to manage from 1994-2003 the largest successful literacy project in South Africa.(Northern Cape and Karoo regions).

Through all these trajectories of my career, I have gathered some invaluable experience, which could add value to the foundational secret of **SALT**. These experiences are sub-consciously part of all my presentations.

NOW is the moment for me to share with you the PRINCIPLES of the miraculous SALT-approach to learning and teaching.

To me this happened to be the master key to unlocking my own greatest potential.

Most probably, you do not want to read any more. You immediately want to order this package of great value.

- **SALT** (Suggestopedic Accelerated Learning and Teaching) is more than just a classroom or subject-related methodology. It is a state of mind, a way of thinking, a way of doing things, a way of respecting humanness.
- **SALT** acknowledges the unlimited potential of every human being within its scope of will, desire, and intention.
- **SALT** is aimed at the unlocking of this unlimited potential.
- **SALT** acknowledges that every individual is entitled to self-worth, self-esteem, self-confidence, self-assertiveness, and all the strengths of humanness.
- **SALT** is aimed at the establishing of all these attributes in the life of every learner and confirms the old adage that you cannot teach anything of value to anyone who has a low self-image.
- **SALT** turns negations into affirmations, constantly SUGGESTING success, progress and advancement to learner AND instructor.
- **SALT** eliminates every element of fear and every perceived 'failure' is turned into an opportunity for better benefit, becoming a stepping-stone for future success.
- **SALT** implies multi-sensory teaching and learning, utilising all the senses of the learner: to see, to hear, to feel, to touch, to smell, to taste.
- **SALT** therefore reflects a multi-modal approach: not just listening but full participation, not just sitting but also playing, not just speaking but also singing, not just learning but also teaching, not just teaching but also learning.
- **SALT** naturally reflects brain-based learning, enabling the learner to experience the miraculous effects of whole-brain learning, synergizing the analytical faculties of the left hemisphere with the wholeness and creativity of the right brain.
- **SALT** respects the wonders of art and nature: the presence of natural elements in the classroom, pictures on the walls for peripheral stimulation, comfortable, friendly, and colourful learning environment.
- **SALT** respects the power of music (especially baroque music) for relaxation, visualisation, and affirmation.

I HEAR YOU SAY: TOO MUCH! TOO MUCH! HOW CAN ONE EVER COMPLY WITH ALL THAT?

The answer is so simple: *You need not become perfect in fulfilling all the requirements! Not even closely! You need only to develop a state of mind, a conscious awareness, which accepts and recognises the value of such an approach to accelerate the speed of learning in every human being.*

Observe the video-recordings of the Home Study and you will realize that the presenter himself is not even closely complying with ALL THE SPECIFIC DETAIL mentioned in the principles. However, observe closely how the presentation is being done, listen to the intonations, experience the total absence of aggression,

become aware of how much information is shared and how this information is being turned into knowledge, and become aware of the ever-present role suggestion is playing.

AT THIS MOMENT, YOU ARE GETTING VERY CLOSE TO THE MOST POWERFUL SYSTEM OF KNOWLEDGE ACQUISITION.

IN BRAIN-BASED LITERATURE THIS IS REFERRED TO AS SUPER TEACHING AND SUPER LEARNING
